The Data Gets Sent Automatically to your autoresponder!

Before you download the plugin and put it into use, I wanted to make sure you are able to fill in the blanks and have everything you need to put this to effective use in a real business.

Knowledge is great, but if you are serious about applying this then you need to see how it fits into the big picture so you can make it work in your real business...

Step 1 – Initial Niche Research - Spying and Snooping

Years ago, one of The best pieces of advice I received was to not reinvent the wheel.

It is much easier, and more profitable, to follow in the footsteps of others.

It makes sense that if one marketer is doing well with a certain niche, that you can do well in a certain niche.

Obviously, there are some sites that do better (much

better) than others.

Why is that?

Why is it so easy for some people to rank their sites and

earn money, while others struggle?

You've got to follow the blueprint they have unknowingly

left for you!

Learn how to reverse engineer SUPER AFFILIATES from

the SEO niche detective and find a

Good niche where other affiliates are doing well!

Then laser target that niche and look at the different ways

and angles you can build a list by looking at other super

affiliates and see how they do their stuff!

Get it from here -> SEO NICHE DETECTIVE
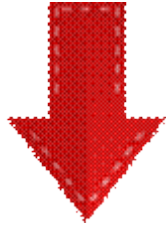

Step 2 – How to get Started from ZERO and how to grow your list

After going through [SEO Niche detective](#) and choosing an AMAZING Niche, you must then start building a list

obviously.

Here is where Coby's [Autoresponder Magic](#) course comes

in..

Honestly speaking, I found some AMAZING points in this

product and a few weak points as well.

The AMAZING points were that it shows you Right from

setting up your autoresponder, setting up your squeeze

pages to growing your list with Banner

swaps, [Autoresponder magic](#) COVERS IT ALL and teaches

you how to go step by step and become profitable right

from the start.

What I personally thought could have been improved was

that the relationship part which Coby did not explain that

well.

Do NOT Underestimate it though!

Autoresponder Magic Also covers the IMPORTANT Aspect

of JV giveaways,

explains you what they are and how you can benefit from

them in a HUGE Way..

(JV giveaways are the best way to Blow your list out off

proportion!)

So make sure you check it out -> [Autoresponder Magic Course](#)
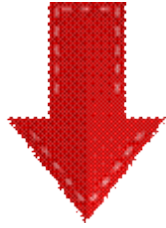

Step 3 a) – Having Attractive Headlines to make people open your emails

After learning how to build your list at a RAPID PACE from Autoresponder Magic, the next Step for you is to write Attractive Emails.

But before that, you need attractive headlines so that people are intrigued to open your email the next second they see it!

Email Headlines like "Hi, What's up?" Is Just NOT going to work!

[(Want premade stuff that works??)](#)

You will need to get creative juices flowing in your mind

and draft up creative headlines so That your subscriber

will start seeing every email as a surprise email,

But guess what?

I just made things easier for you..!

I dug up the WF and came up with this Fourerr (Yeah –

4bucks…LOL..:D!) where you get

- A fast paced 15 page guide that shows you how to crush it with addictive headlines

- Over 60 tested & proven headlines ready to copy & paste!

A bonus 3 page report with 33 tips for growing your list

- Winning headline formulas and addictive hooks to put you in a world of clicks

[BONUS] 150 Headlines from top internet marketers

(as collected by Calvin Woon)

Here it is -> Headline Handgun!
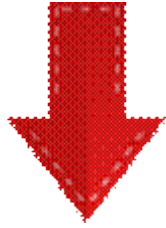

Step 3 b) – Writing Sexy EMAILS!!

Now that you have built a list, You need to know how to

market to this audience.

It is not enough if you build that list alone, your emails

must convert so that people get to buy the products you

PIMP in your emails!!!

I have read many [ebooks on email copywriting](#), but this

one from Steve Lorenzo STANDS OUT of the rest!

This guy has

Sent out over 10 million eMails since he started his IM

journey...

Has built a following of almost 27,000 eMail subscribers in

different niches, 17k+ in

the IM niche only...

He has also 'lost' more subscribers in the first year, than

many people have ever gathered in ten... before I learned

how to keep them...

So imagine..!
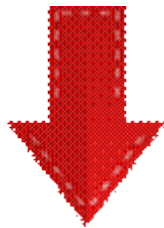

Email copywriting is one of the MOST IMPORTANT

Techniques that you can learn as an Email marketer…And

this is definitely the BEST PLACE TO START!

[Start writing Sexy emails from today –> Sexy Email Marketing!](#)

The Last Step -> Building Responsive Lists!

So, after you learn how to write good high converting

emails from Sexy Email Marketing,

You will then feel this regular drift which most affiliate and

email marketers face...

Your list will start ignoring you! (Sorry to say the blunt

truth!)

What will you do then?

Reinvent the wheel and build your whole damn list

again??

LOL!

[Why don't you start to do that from Day 1??](#)

If you take a few Safety precautions, you can make your

list love you right from Day 1.

You know what the trick is?

The trick is to mix an affiliate promo and content and turn

it into an email!

There are many more tricks like this where you can build a

responsive list and you are Better off doing this in the

beginning rather than in the end.

This time, I am presenting you a fiverr from Sherman Fredricksen and he shows you how he went from $.50 per subscriber to $3 per subscriber with easy simple to use techniques which will [make your list love you like crazy](#) (<- This is what you want!!)

He makes you realize that the people who are subscribed to your list are REAL People and Teaches you simple tricks to profit.

==> [Start building responsive lists from today!](#)

Ok guys, I have covered it all..

Let me break you the steps again,

[Learn to do Niche Research by stealing the niches of super affiliates.](#)

[Learn basics of list building and build a mega sized list](#)

[Get High converting headlines which people open at the](#)

[glance of them.](#)

[Then learn to write SEXY EMAIL COPY to produce emails that convert.](#)

[Then keep your subscribers happy and responsive even while you market to them without pissing them too much.](#)

Let me tell you one more thing, I have purchased all these

WSOs personally and that

Is why I am recommending them to you.

I just request you this – Please Don't see this as an upsell

trick.

List building is simply something mindblowing.

There is no other thing like that where all you do is to type

an email, press the

Send button and then collect the cash!

But remember,

A Lot of hardwork goes into building a list and unless you

have a list of 1 Million people,you have a LOT of work to

DO!

([You may](#)

[definitely not know this one](#)

[About reverse engineering Super Affiliates!](#))

So make a wise business decision!

That's All I can say!
